

Abdulrhman Omar

Aspiring Frontend Developer

abdulrhmanomar613@gmail.com | +20 111 610 9277 | Cairo, Egypt | abdulrhman-self.vercel.app

linkedin.com/in/abdulrhman-omar-97a1a63a8 | github.com/abd0mar

PROFESSIONAL SUMMARY

Aspiring Front-End Developer experienced in building responsive web apps with HTML, CSS, JavaScript, and Tailwind CSS, currently expanding into React.js and TypeScript through self-directed learning. Strong problem-solver with a passion for clean UI design, seeking a front-end internship to grow within a professional team.

EDUCATION

Bachelor of Commerce, Cairo University

Faculty of Commerce

- Expected Graduation: 2028

TECHNICAL SKILLS

Frontend

HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Responsive Web Design

Currently Learning

React.js, TypeScript

Tools & Concepts

Git, GitHub, OOP, Problem Solving, Debugging

PROJECTS

Dashboard Project

Demo: abd0mar.github.io/Dashboard_Project | **Code:** github.com/abd0mar/Dashboard_Project

- Built a responsive admin dashboard from scratch using semantic HTML5, CSS3, and vanilla JavaScript, with a clean, user-friendly layout.
- Implemented dynamic interactions and real-time UI updates using JavaScript.
- Applied responsive design techniques (flexbox, media queries) for consistent display across desktop, tablet, and mobile.

Todo List Application

Demo: abd0mar.github.io/ToDo_List_App | **Code:** github.com/abd0mar/ToDo_List_App

- Developed a dynamic task management app using HTML, CSS, and vanilla JavaScript with full CRUD functionality (Create, Read, Update, Delete).
- Used the browser's LocalStorage API for persistent data storage, with interactive add/edit/complete/delete features and instant UI feedback.
- Applied responsive design principles for a consistent experience across mobile and desktop.

PROFESSIONAL EXPERIENCE

Micro Engineering Egypt (MEEG), Data Labeling

09/2025 – 10/2025 | Madinet Nasr

- Labeled objects in camera footage (cars, trucks, trees) using 3D annotation for AI/computer vision datasets.

ADDITIONAL INFORMATION

- Languages:** Arabic (Native), English (B1 - Intermediate)
- Self-taught through project-based online learning (video courses, documentation, and independent practice)
- Comfortable using Git/GitHub for version control and collaborative workflows
